MINT WIRELESS SIGNS AGREEMENT WITH TBS MOBILITY FOR UK & EUROPE

Dear Sir,

Mint Wireless Limited (ASX: MNW) is pleased to announce the signing of a partnership agreement with TBS Mobility, a leading Motorola Enterprise mobile solutions provider in the UK and Europe markets. TBS will now have the ability to offer Mint's mobile payment service to their blue chip customers with tens of thousands of mobile terminals in the field presently unable to process payments.

This agreement follows on from our recently announced launch of our global payments service and strategic partnership with Motorola. The Company is on schedule to have its managed payment service available in the UK in the coming weeks. This partnership agreement with TBS Mobility will strengthen the Company's distribution network and acquisition of new customers.

The attached media release provides further information.

Yours faithfully,

Gary Stewart
Company Secretary
Mint Wireless Limited
P: 02 8752 7888

About Mint Wireless Limited:

Mint Wireless Limited (Mint) is an Australian based technology company listed on the Australian Securities Exchange (ASX: MNW) in 2007. Mint's core businesses are the development of innovative payment solutions and consumer technology products and services through the Mint Payment Solutions and Mint Technology brands respectively. Mint has won many hardware and software awards including Microsoft and IBM's Consensus Awards in 2008. In 2009, Mint has been recognised amongst Australia's best performing small-to-medium companies, winning two recent awards: ranking 4th in the BRW Fast 100 awards, and ranking 5th in the SmartCompany.com.au Smart 50 awards.

MINT WIRELESS SIGNS AGREEMENT WITH TBS ENTERPRISE MOBILITY FOR UK & EUROPE

- **Mint signs partnership agreement with leading Motorola Enterprise mobility solutions provider for the UK and Europe markets.**
- **Combined solution will utilise Motorola's chip & PIN device.**
- **Tens of thousands of mobile terminals in the field, now able to offer Mint's integrated payment application.**

Sydney, 22 February 2011: Mint Wireless Limited (ASX: MNW) ("Mint") is pleased to announce a signed partnership agreement with TBS Enterprise Mobility ("TBS"), a leading Motorola Premier Independent Software Vendor, initially for UK and European markets.

TBS produces the TaskMaster software solution, an innovative workforce management platform used on tens of thousands of mobile terminals by field workers around the world. Its customers include businesses such as ADT, Balfour Beatty, Chubb, and Taylor Woodrow FM. TBS has operations in the UK, Europe, Canada and United Arab Emirates markets.

TBS has completed the integration of its TaskMaster enterprise mobility solution with Mint's Enterprise payment solution enabling TBS customers to accept chip and PIN, and debit card payments by field workers using mobile devices. As part of the partnership agreement, TBS is committed to initially promoting the additional mobile payment functionality to existing and new customers across the UK and Europe, followed by other countries where TBS operates.

Cameron Olsen, CEO of Payment Solutions for Mint Wireless commented: "We are delighted to be partnering with TBS, as we recognise that they are a key player in the enterprise mobility space, supporting tens of thousands of mobile devices in the field and being one of only seven Premier Independent Software Vendors for Motorola. This is just one of the many accolades that they have earned over the years. We feel that our solutions will work seamlessly in providing field workers with improved payment collection processes."

"This presents a large opportunity for Mint to work with a highly experienced and respected enterprise mobility company like TBS, which is very well regarded by Motorola and has a large install base with many leading businesses around the world." Olsen concluded.

Steve Reynolds, Managing Director of TBS Enterprise Mobility commented: "We've had customer demand for a payment service like this, so we're pleased to be partnering with Mint on a significant enhancement to TaskMaster."

"It gives field workers unrivalled payment flexibility. An unscheduled maintenance job could be completed and paid for at the same time as a scheduled job, with no need for an additional visit or extra processing of paperwork," Reynolds concluded.

The agreement follows a recently announced partnership between Mint and Motorola, enabling Mint to offer Motorola PartnerSelect members the Mint Enterprise payment software application and Managed Payment Service with Motorola mobile terminals and its DCR7x00-200R "snap on" payment device.

The Company looks forward to updating the market upon the conclusion of any major customer wins as a result of these partnership agreements.
